

HOWDY PARDNERS!

SEPTEMBER 2011

Here at "the Ranch" we would like re-introduce you to the ranch hands. There's Julie who's "Punchin' Membership" and Susan who's "Stringin' Up" invoices to pay. There's also the "Head Wrangler" Peggy. We've had a lot of dust storms lately, so we've been trying to work while the dust settles.

Julie's got some "milestones" comin' up. And she's gonna be busier than a bull in a field of heifers. So double and triple check your applications and make sure you've got the correct transmittal when you put your paperwork on the Pony Express to get to us.

Susan's has a handful with figuring out who gets paid and when. She'll string up anyone who does not send in paperwork with their check to "the Ranch" (the Dept.) or when requesting one. If you don't, she might throw you in the hoosegow.

Up at Fort ALA National, they've been sending us some new fangled ways to take care of business. A lot of times we feel like they need to be hog tied, but they are just lookin' out for our welfare. So we will pass a peace pipe and hope we can get work things out.

It's been a while since I've been up in the saddle, so bear with me while I get my riding legs back. If you can find a place to hitch your horse, you're always welcome at The Ranch. We're listening to the telegraph key for you next message to us.
